A story about me

General information

My name is (First Name Last Name Patronymic). I was born in (year). Now I am 37 years old. I was born in Russia, in Krasnoyarsk (Krasnoyarsk region). Now I also live in this city. This city is my small homeland. I like the Russian saying: «Be of use and carry your business on in the country where you were born», so now I'm not thinking about moving to another place.

Education

I graduated from school in the 9th grade, and then went to college. Thus, I have a secondary education.

I am currently continuing to study. I believe that a person really lives and develops only when he or she learns something new: skills or knowledges.

Hobbies

Now my work is at the forefront of my life. I often go on business trips. I often do not have enough free time to pursue my hobbies because of this. After working day, I prefer reading books, as well as watching movies and TV shows before going to bed. However, in the future I want to master some activities.

First of all, I would like to do summer fishing. I think this is a great way to combine business with pleasure: I will be able to spend a lot of time by the water in the fresh air, relax and reflect on life, at the same time catch fish, so later I can cook food with it. I think it's a great hobby!

In addition, I would like to master such a hobby as water skiing. I have already tried this sport two times during my life, and I really liked it! In the future, I want to purchase professional equipment and undergo high-quality training with a water-skiing coach. I think this is a good way to get a dose of adrenaline in everyday life!

When I have free days, if the weather is good outside, I like to run or ride a bike. This is a great way to change the type of activity and get away from routine thoughts.
